### Announcing the ASME India Oil and Gas Pipeline Conference

[www.asmeconferences.org/PipelineIndia07](http://www.asmeconferences.org/PipelineIndia07)

The government of India recently announced plans to develop a futuristic pipeline infrastructure in India, a plan endorsed by both the Oil Ministry and the Finance Ministry to secure the energy needs of India. The theme of the conference is Engineering Success for Oil and Gas Pipelines in India. The [Oil and Gas Pipeline Conference](#) will bring together engineers, industry executives and government leaders to discuss technology issues, standards and business opportunities for the oil and gas pipeline market in India. The conference will include:

- **Oil and gas industry leaders** and government officials who will discuss the challenges and opportunities for Indian pipeline construction and maintenance
- **Exceptional networking opportunities** among key decision-makers of the pipeline industry from around the world
- **Tutorials** on current pipeline technology issues
- **International best practices** of the pipeline industry
- **Highlight India** as an important business destination for pipeline related work

### Program

DAY ONE

**Monday October 15, 2007**

**Tutorials on Pipelines**

DAY TWO

**Tuesday October 16, 2007**

**Tutorials on Pipelines**

Some tutorial topics are:

- **Pipeline Risk Management**
- **In-Service Welding and Recommended Practices for Pipeline Repair**

- Integrity Evaluations and In-Line Inspection Technologies
- Technical Health and Safety Regulations

DAY THREE

**Wednesday October 17, 2007**

**Pipeline Conference followed by a networking reception in the evening**

DAY FOUR

**Thursday October 18, 2007**

**Pipeline Conference**

Key players and decision-makers of the Oil and Gas Industry, Pipeline Manufacturers and related Government Agencies from India and around the world will attend the conference. All four days of the conference will have lunch and tea breaks that participants can utilize to network and exchange business ideas.
